## Why learn Bridge?

Bridge is the most popular card game in the world and played by one in fifteen people in the UK alone. A highly stimulating and hugely addictive game, bridge is currently enjoying a huge resurgence of popularity. The benefits for children include improving skills in numeracy, memory and concentration; and for

adults include mental stimulation helping to keep the brain active and to stave off degenerative diseases. It can be enjoyed at many levels from a social game amongst friends right up to serious competition level. As well as the intellectual and competitive elements, the social side of bridge cannot be underestimated. Many lifelong friends are formed at the bridge table!

## Beginner Bridge with Dinah and Claudia

Mother and daughter, Dinah and Claudia Stocken will be teaching the group together meaning that with a small group (*between 4 and 16 people*), you will be able to advance quickly and should be able to complete the full beginner course during your stay.

Dinah has many years' experience of teaching bridge, particularly to beginners, so her methods are ideal for those who are rusty or starting from scratch. Claudia will be on hand to ensure the smooth running of your holiday and, as a keen and experienced bridge player herself, she will also be supervising bridge sessions.

There will be six lessons scheduled during the stay taking place every day in the morning (*10am to 12.30pm*) and in the afternoon (*5pm to 7.30pm*). In addition to this, there will be after dinner supervised play sessions for you to practise what you have learnt.

## Serre Chevalier

Serre Chevalier is the collective name for several traditional villages in the Guisane valley, stretching from the magnificent 12th century walled town of Briançon to the breathtaking Col du Lautaret with its glacial views.

Chantemerle is one of these villages surrounded by the outstanding rugged beauty of the southern French Alps and just 10 miles from the Italian border. This region has spectacular mountain scenery with a mediterranean climate, and is the sunniest in France, with 300 days of sunshine per year on average. Serre Chevalier has to be France's best kept secret!

## Chalet les Marmottes

Chalet les Marmottes, situated in the centre of the old part of Chantemerle village, is an old French farmhouse, lovingly restored by Denis and Karin Lucas to provide accommodation for up to 16 people. The chalet is typically alpine with exposed beams throughout and the bedrooms all have ensuite facilities.

The living room with its log fire is full of character and the separate dining area on the first floor has a large south-facing balcony with fabulous mountain views. There is also a private garden with decked terrace - perfect for well-earned aperitifs after bridge and walking.

## Guided Walks with Mike Rollins

The mountains in Serre Chevalier are absolutely spectacular in June with the wild flowers at their best and the snow-capped peaks contrasting with the azure blue skies. Mike is a fully qualified hiking and trekking guide and both our summer and winter walking guests have thoroughly enjoyed excursions with him. Having lived nearby for over 25 years, he is extremely knowledgeable about the local history, flora, fauna, and mountain geology, taking you off the beaten track to see nature first-hand.

There will be two afternoon walks scheduled during your stay with the third afternoon free to explore. The walks are optional and will be tailored to the group, but will be easy and at a gentle pace. ## Other Things to Do

With a packed programme of bridge and walking, you will have plenty to keep you busy, but here are a few other options:

### The Old Town of Briancon

The old fortified town of Briancon is the highest town in Europe at 1326m and is only 10 minutes drive away. Take in its fascinating history, cobble streets, interesting shops and wonderful views from the ramparts.

### Les Grands Bains, Monetier

Relax in one of Europe's largest thermal baths with outdoor and indoor pools giving you a wonderful view of Monetier's glittering glacier.

### Rafting

Try white water rafting down the River Guisane, just minutes from the chalet.

### Cycling

Serre Chevalier is a paradise for cyclists, whether on a road or mountain bike. If all this sounds like too much work, hire an electric bike and you can tackle any hill without even breaking into a sweat. Contact us for full details.

## Extending your stay

Four days will not seem long enough in this beautiful area, so why not extend your stay in the chalet? Alternatively, you could visit Turin, a beautiful city with elegant tree-lined boulevards, palaces, museums and extensive shopping possibilities.

## Travel Details

### By Air:

Turin airport in Italy is the nearest airport, with a transfer time of 1 hour 45 minutes. The afternoon British Airways flight from London Gatwick has good timings (*arrives Turin 16.10, leaves Turin 17.10*) and we will include airport transfers for anyone on this flight. Alternatively Ryanair fly to Turin from London Stansted and we can organise transfers from 45€ per person each way, depending on the number of people travelling. Otherwise there is a good choice of car hire companies for self drive from the airport. Although Grenoble airport seems closer, the transfer time is longer (*approx 2.5 - 3 hours*).

### By Train

There are scheduled services using Eurostar from London to Paris, Gare du Nord and then a direct TGV train from Paris, Gare de Lyon to Oulx (Italy) for Serre Chevalier. At Oulx there is a transfer coach to Briançon taking about 50 minutes and then we can organise a pick-up. There is also an overnight sleeper train direct from Paris to Briancon.

### By Car

After crossing the Channel by Eurotunnel or by ferry, Serre Chevalier can be reached in approximately 10-12 hours, via the Frejus tunnel and Montgenevre.
